

INFANT NEWSLETTER
MARCH 2026

Hello parents and welcome to March!

Sick season finally seems to be slowing down! However, it's extremely important to contain the spread of germs to keep our babies from passing around sickness. Please be sure to review our sickness policy if you have questions.

With the nicer weather coming, we'd love to be able to take the babies on walks. We walk the sidewalk to Hood Park and occasionally walk around the park or stop at the picnic tables for snack, if their moods allow it. We never leave the building without messaging parents first and have signed permission slips for each child. If you'd prefer your child not to attend, that's okay too!

Thank you!
